

IFLA Section Environment, Sustainability and Libraries

IFLA Green Library Award 2023

Administered by ENSULIB, Environment, Sustainability and Libraries Section
(<https://www.ifla.org/environment-sustainability-and-libraries>)

Awarded as **2nd Place Winner** in Category
“Best Green Library/Grand Scale Project”

IFLA GREEN LIBRARY AWARD

“Illyés Gyula” Library of Tolna County, Hungary

Title

Library at the Gates of Cultures & Gemenc

submitted by János Liebhauser

This project truly deserves to be awarded as it demonstrates a strong community commitment that includes several partnerships with local, national and international organisations. An impressive aspect is their commitment to collaboration and learning about sustainable initiatives from other libraries around the country, enabling the growth of a county-wide green library network. Worth noting, the library also has set sustainability issues as a core of its mission statement.

IFLA and ENSULIB congratulate the 2nd Place Winner!

Rotterdam (Netherlands), August 2023
